-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 May 2006.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

6) ☐ Other: _____.

DETAILED ACTION

1. This Office Action is in response to the After-Final Amendment filed 5/9/06.
Claims 1 and 3-24 are currently pending in the application.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 10-24 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 10 is directed to a process, which consists solely of the manipulation of data. For example, claim 10 is directed to the format and access of data stored in a plurality of tables. To be a statutory process claim, the claim must either have independent physical acts, or manipulation of data representing physical objects or activities, or be limited to a practical application by producing a concrete, tangible, and useful result. Claim 10 currently fits none of these statutory categories of invention for a process claim. It is recommended that claim 10 be amended such that the claimed data structures are used to produce a concrete, tangible, and useful result. For example, adding limitations directed towards looking up packet forwarding data in the claimed tables based on information found in the packet data and using the packet forwarding

data obtained to take actions resulting in routing the packet to its proper destination. These limitations should be added to the body of the claim and should not be in the form of intended use of the invention, but should be in the form as actual process steps performed.

Claim 15 is directed to a process similar to the one of claim 10 and is rejected for the same reasons.

Claims 11-14 and 16-24 are rejected because they depend on rejected claims 10 and 15 respectively and because they do not add limitations that make the claims fall within statutory process claims.

Allowable Subject Matter

3. Claims 1 and 3-9 are allowed.
4. Claim 10-24 would be allowable if rewritten to include statutory subject matter as discussed above.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
